Industry Leadership Continued

**Sustainability leadership**
- Dell launched its new net zero goal – to reach net zero greenhouse gas emissions across Scopes 1, 2 and 3 by 2050 – on Earth Day 2021 as an extension of our commitment to help solve the climate crisis.
- In 2020, Dell Technologies received an A on CDP’s Climate change ‘A list’ of companies transparently reporting their climate impact and actions to cut emissions, mitigate climate risks and develop the low-carbon economy.
- In FY21, Dell used over 27 million pounds of sustainable materials in its products and 87% of packaging was made from recycled or renewable materials.
- Since 2007, Dell has recovered more than 2 billion pounds (1.08 Bil. Kg) of used electronics. Building on our 20+ years of offering global recycling and using sustainable materials, we will rethink, redesign, reuse and recycle our way to a better future.
- Dell created the industry’s first packaging made from ocean-bound plastics and co-founded NextWave plastics, a consortium of companies developing the first network of ocean-bound plastics supply chains and preventing plastic from entering the ocean.
- Ranked #1 for environmental management of our supply chain across all industries by IPE’s Corporate Information Transparency Index in 2020.
- First to earn UL Environment certification for a closed-loop process, recycling the plastics from old computers into new parts.
- Dell is ranked #2 overall in the Institute of Public and Environmental Affairs (IPE) Green Choice Alliance’s Corporate Information Transparency Index (CITI) for our supply chain work in China.
- Winner: Responsible Business Alliance’s Compass Award for Leadership, and Compass award for innovation through Sustainable Materials.
